

September 2023

Class 1

Class 1 have been learning to group animals. The children learnt that 'we', humans, are mammals and so is our school dog, Benny! We had a special visit from Benny this week and were excited to see him looking so relaxed, wagging his tail and showing his paws. We have also been looking into some features that birds and fish have. In maths we have been learning to make one more and one less than a number.
