

October 2023

Class 1

Class 1 enjoyed a talk about Antarctica this week. They were excited to find out about various animals through pictures and videos. They carefully observed the different features the animals have that help them survive in their cold habitat, Antarctica.

We have started our new English text, Traction Man is here. The children have been asking question and predicting what they thought would happen in the story.

In history we started our topic, Toys over Time, and the children were excited to bring in a toy from home and tell us about it.
