Class 2

This week in science, Class 2 have been learning to identify materials and describe their properties. They used the stem sentence "The object is made from _____ and some of its properties are _____". They worked as a table, describing what they felt and saw using scientific language.

In English, we have been started our new book called 'Bob and the Moontree Mystery' by Simon Bartram. We have been making predictions about the book and have learnt how to write in a list using commas.
